Italian Paritament Opened. ROME, Dec. 10 .- The Italian partiament was opened to-day. In his speech opening the session King Humbert said the recent elections for membership of the chamber of deputies had rendered the state more solid than ever. He announced that bills to improve the condition of workingmen would be introduced. In conclusion his majesty said: "Following my fathers example, I have always respected the rights of my aucestor's religion, but I will never suffer my sovereign authorities to be segregated in that religion."

This utterance was greeted with enthusiastic applause.

Manchester Trade Review. MANCHESTER, Eng., Dec. 10 .- The Guardian in its commercial articles says: The financial stringency in the United States and the recent failure in the Indian trade has had a subduing effect upon the market, although the demand in some directions is large. Business is light. Orders for India and China coutinue to be received in fair volume, though some are at reduced rates, owing to the decline in exchange. A moderate proportion of orders are executed. For elsewhere there is a steady though small business. Home houses are doing little. Yarus are quiet. Some export orders have been executed, which had been previously refused. The tendency is downward, though quotatious are unchanged. China bundles are very dull. Business in the cloth department is moderate, orders being chiefly for small quantities. There are numerous inquiries for abproved makes of grey goods for China, but they are largely tentative. Best printing cloths are steady at decline. Common, duil. Henvy goods are quiet and the best makes firm.

#### On the Texas Coast,

Special to the Gazette. Washington, Dec. 10.-Mr. Crain succeeded in passing to-day in the house a bill to promote the construction of a safe deep water barbor on the coast of Texas. It will be remen bered that John Willett is the father of this project, and spent many months here last session endeavoring to have it passed. Willett is now in New York, and it is said that he has a sure field, and the passage of the bill to-day is largely due to his efforts. The bill is as follows: The Corpus Christi Padre Island harbor comis authorized to construct their exclusive cost, a exclusive

pany sea wall, brenkwaters and viaduot off the shore of Padre Island on the coast of Texas within the jurisdiction of the United States. The said company shall within two days after the passage of this net locate and commence the construction of said harbor at a point to be se-lected by them off the Padre Island coast of Texas, commencing at the water's edge and running at an angle to the shore. They shall construct a viaduct of the most

THE TEXAS A. AND M. COLLEGE.

In the matter of the allotment to

Texas for the support of the Agricultural

and Mechanical college under a recent act of congress the secretary of the interior has heretofore declined to assue to Texas the amount of the appropriation due the state upon the ground that the act required the legislation to first apportion the fund between the Agricultural and Mechanicel college and the colored normal institute. Mr. Sayres bad an interview with the assistant secretary of the interior at the request of the governor, who had received a communication from the department that a certificate would be issued for the amount due Texas for the first year if the governor would make a report to the department and agree upon n tair and agreeable division of the fund between the schools mentioned. To obtain the second year's installment, the legislature to convene in January must make a fair and equitable division of the fund to be paid hereafter, which division must meet the approbation of the interior department. No Telling the Outcome.

sected thing. In 1880, when Samuel J. Tilden was supposed to absolutely con-trol the convention, Hancock stepped in and won the prize. Again in 1888, when up to within twenty-four hours of the nomination of Harrison it was dollars to doughnuts that the popular Republican idol, Blaine, would be the nominee. The belief of the friends of Mr. Cleveland, however, is that he will be swept into a renomination by a great tidal wave. They predict that he will be nominated in the convention before the state of New York is reached on the roll call. The Hill adherents argue as fol-

lows: Cleveland carried New York for governor by 192,000; lost it for president by 1047, carried it for president by 13,000, and that he will earry it in '92 by 30,-000. The doubtful states

DO NOT WANT CLEVELAND. because they do not believe they can win with him and because they do believe they can win with another man. Amother argument of the anti-Cleveland men is that he will not have an open field for the nomination. Governor Pattison will have the Pennsylvania delegation and Governor Palmer of Illinois will look with eagle-eye for his state's support. They say that Carlisle will get Kentucky's vote, or at any rate Cleveland cannot hope for that delegation Hill has been making campaign capital by his speeches in West Virginia, Ohio and elsewhere, and it is said he will divide the South. Virginia is for anybody to bent Cleveland. The great objection of Democrats to Hill is the charge made by Secretary Endicott and other members of Cleveland's cabinet, that he knifed Cleveland in 1888 in New As far back as 1888 looking into the future, clear - headed political prophets thought they saw that Cleveland and Hill might destroy each other as presidential candidates and a new candidate come to the front from either New York or some other state and that is

not an improbability now. GOVERNOR FRANCIS OF MISSOURI was here this week. He is for Hatch for the speakership. Francis is for Cleveland in 1892. He has a large fortune which he married. He is a shrewd politician, but has bound himself up with Senator Vest, against whom there is a revolt in the party, and Hill's friends are rallying around Judge Ralph Walker, who is a bright and able lawyer, competent to give Francis a hard fight unless the latter combines with him and throws the state to Hill.
